

CITY OF MURRIETA

April 10, 2019

Water Infrastructure Ad-Hoc Committee

Dear Ad-Hoc Committee Member,

This is a brief update on the status of the Focused Municipal Service Review (FMSR).

You may recall that the City Council first formed the Water Infrastructure Ad-Hoc Committee (Water Committee) in October of 2017 to address water supply and infrastructure concerns in the western portion of the City. Then in December of 2017, the Water Committee unanimously determined that the most appropriate course of action was to ask LAFCO to conduct a detailed Municipal Service Review. Agreeing with the Committee, in February of 2018, the City wrote a letter to LAFCO formally requesting a FMSR. Ultimately, on December 6, 2018, the Local Agency Formation Commission (LAFCO) approved a consultant Agreement with West Yost Associates to prepare a FMSR for the area that generally comprises the Murrieta Division of Western Municipal Water District.

The scope of work that was described in the Requests for Proposals circulated by LAFCO provided the basis for the Agreement. Subsequently, the involved agencies (Western Municipal Water District, Eastern Municipal Water District, Rancho California Water District and the City of Murrieta) agreed to fund equal portions of the cost of the Agreement.

One of the first tasks identified in the Agreement is to hold a public meeting on the FMSR. That meeting is scheduled for **April 25, 2019, at 6:00pm**, at the Library Community Room, in the Murrieta Public Library. The purpose of the meeting is to take public comments and allow members of the public to ask questions regarding the FMSR. This is an informational meeting only; no decisions will be made at the meeting.

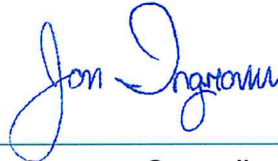

The City would like to thank you for being a part of the Water Committee as your contribution was vital in helping to secure LAFCO approval to prepare a FMSR. In light of that success, with the study now in the hands of LAFCO, and because the City does not have a role as a water purveyor, the Water Committee's role is complete. No future Water Committee meetings will be scheduled.

Like you, the City looks forward to the completion of the FMSR and implementation of recommendations that will help ensure the adequacy of future water infrastructure and supply.

Sincerely,

Kelly Seyarto, Mayor
City of Murrieta

Jonathan Ingram, Councilmember
City of Murrieta
